

Changes to Green Waste Disposal

Starting on July 1, 2022, the Maricopa County Waste Resources & Recycling Division's Transfer Stations will no longer accept bulk green waste year-round.

- After this date, green waste and bulk lumber disposal will be offered every quarter.
- **The first collection will be held in July 2022.** A final schedule, by location, will be posted online by June 2022.
- **Bagged and bundled green waste will continue to be collected on days the transfer stations are open.**
- Alternative locations: green waste disposal services may be available at nearby public or private transfer stations outside of these dates.

Please note that transfer stations only offer residential green waste disposal services. Commercial loads will not be accepted.
